

A New Approach to Successful Weight Management

Dirk van Lith

Malta 2016

'If people let the government decide what foods they eat and what medicines they take, their bodies will soon be in a sorry state as are the souls who live under tyranny.'

Thomas Jefferson
(President of The USA: 1743-1826)

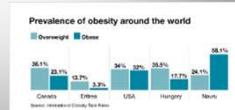

Introduction

Who am I?

The Global Obesity Epidemic

- About 2.1 billion people - nearly 30% of the population of the planet - are overweight or obese
- Worldwide childhood obesity has more than doubled and quadrupled in adolescents in the past 30 years

Malta and Obesity

- Malta is in the top 5 obese countries
- Malta has the highest percentage of overweight or obese schoolchildren aged 7-11 in Europe

Top five obese countries

Country	Prevalence (%)
Malta	16.1%
Hungary	11.7%
USA	9%
Canada	8.1%
France	2.7%

Weightdrops

No other weight loss program brings such a fast weight loss, without hunger and with a sense of cheerfulness and fitness

The Origin of the Weightdrops Treatment Program

- The dr. Simeons HCG protocol is still on the market and widely used for weight loss, especially in the USA. This protocol is also called 'the cure'
- The 'cure' was brought to the Netherlands in the sixties by Doctor F.L.L.M. Merckelbach
- The Weightdrops treatment program using W8drops instead of HCG is just as or even more effective

'If you stick to the guidelines, we guarantee a lasting result'

The Weightdrops Treatment Program is not a Diet!

- Starting with the W8drops treatment program means that one decides, right at that moment, to never go on a diet again
- This decision will add to health and longevity

*There are no limitations
to the mind
Except those we acknowledge*

Napoleon Hill

Some Facts about Weightdrops

- W8drops nutritional guidelines and the protocols are precisely the same as in the HCG Simeons Cure.
- W8drops has proven to powerfully support fat burning in the abdomen and thigh area resulting in losing pounds and inches.
- W8drops is applied as sub-lingual drops - 4 after waking up in the morning and 4 before going to sleep at night - a total of eight (8) drops daily.
- Obesity is the leading cause of cardiovascular disease, high cholesterol, cancer, diabetes and infertility. It is considered a serious health hazard and the Dutch cancer society does consider it as the number one cause of early death.

*A well-balanced lifestyle should be the goal
for any responsible weightloss program:*

*A combination of
healthy eating,
exercise and
stress management.*

The Weightdrops Treatment Program in 3 Easy Steps

1. Losing weight
